

concor
INFRASTRUCTURE

Concor Infrastructure offers diverse solutions across all civil engineering disciplines, based on years of hard-won expertise and experience.

As a division of Concor Construction, the company prides itself on its ability to deliver quality workmanship on projects of all sizes. This is enabled by the specialised civil engineering skills and multi-disciplinary teams of professionals.

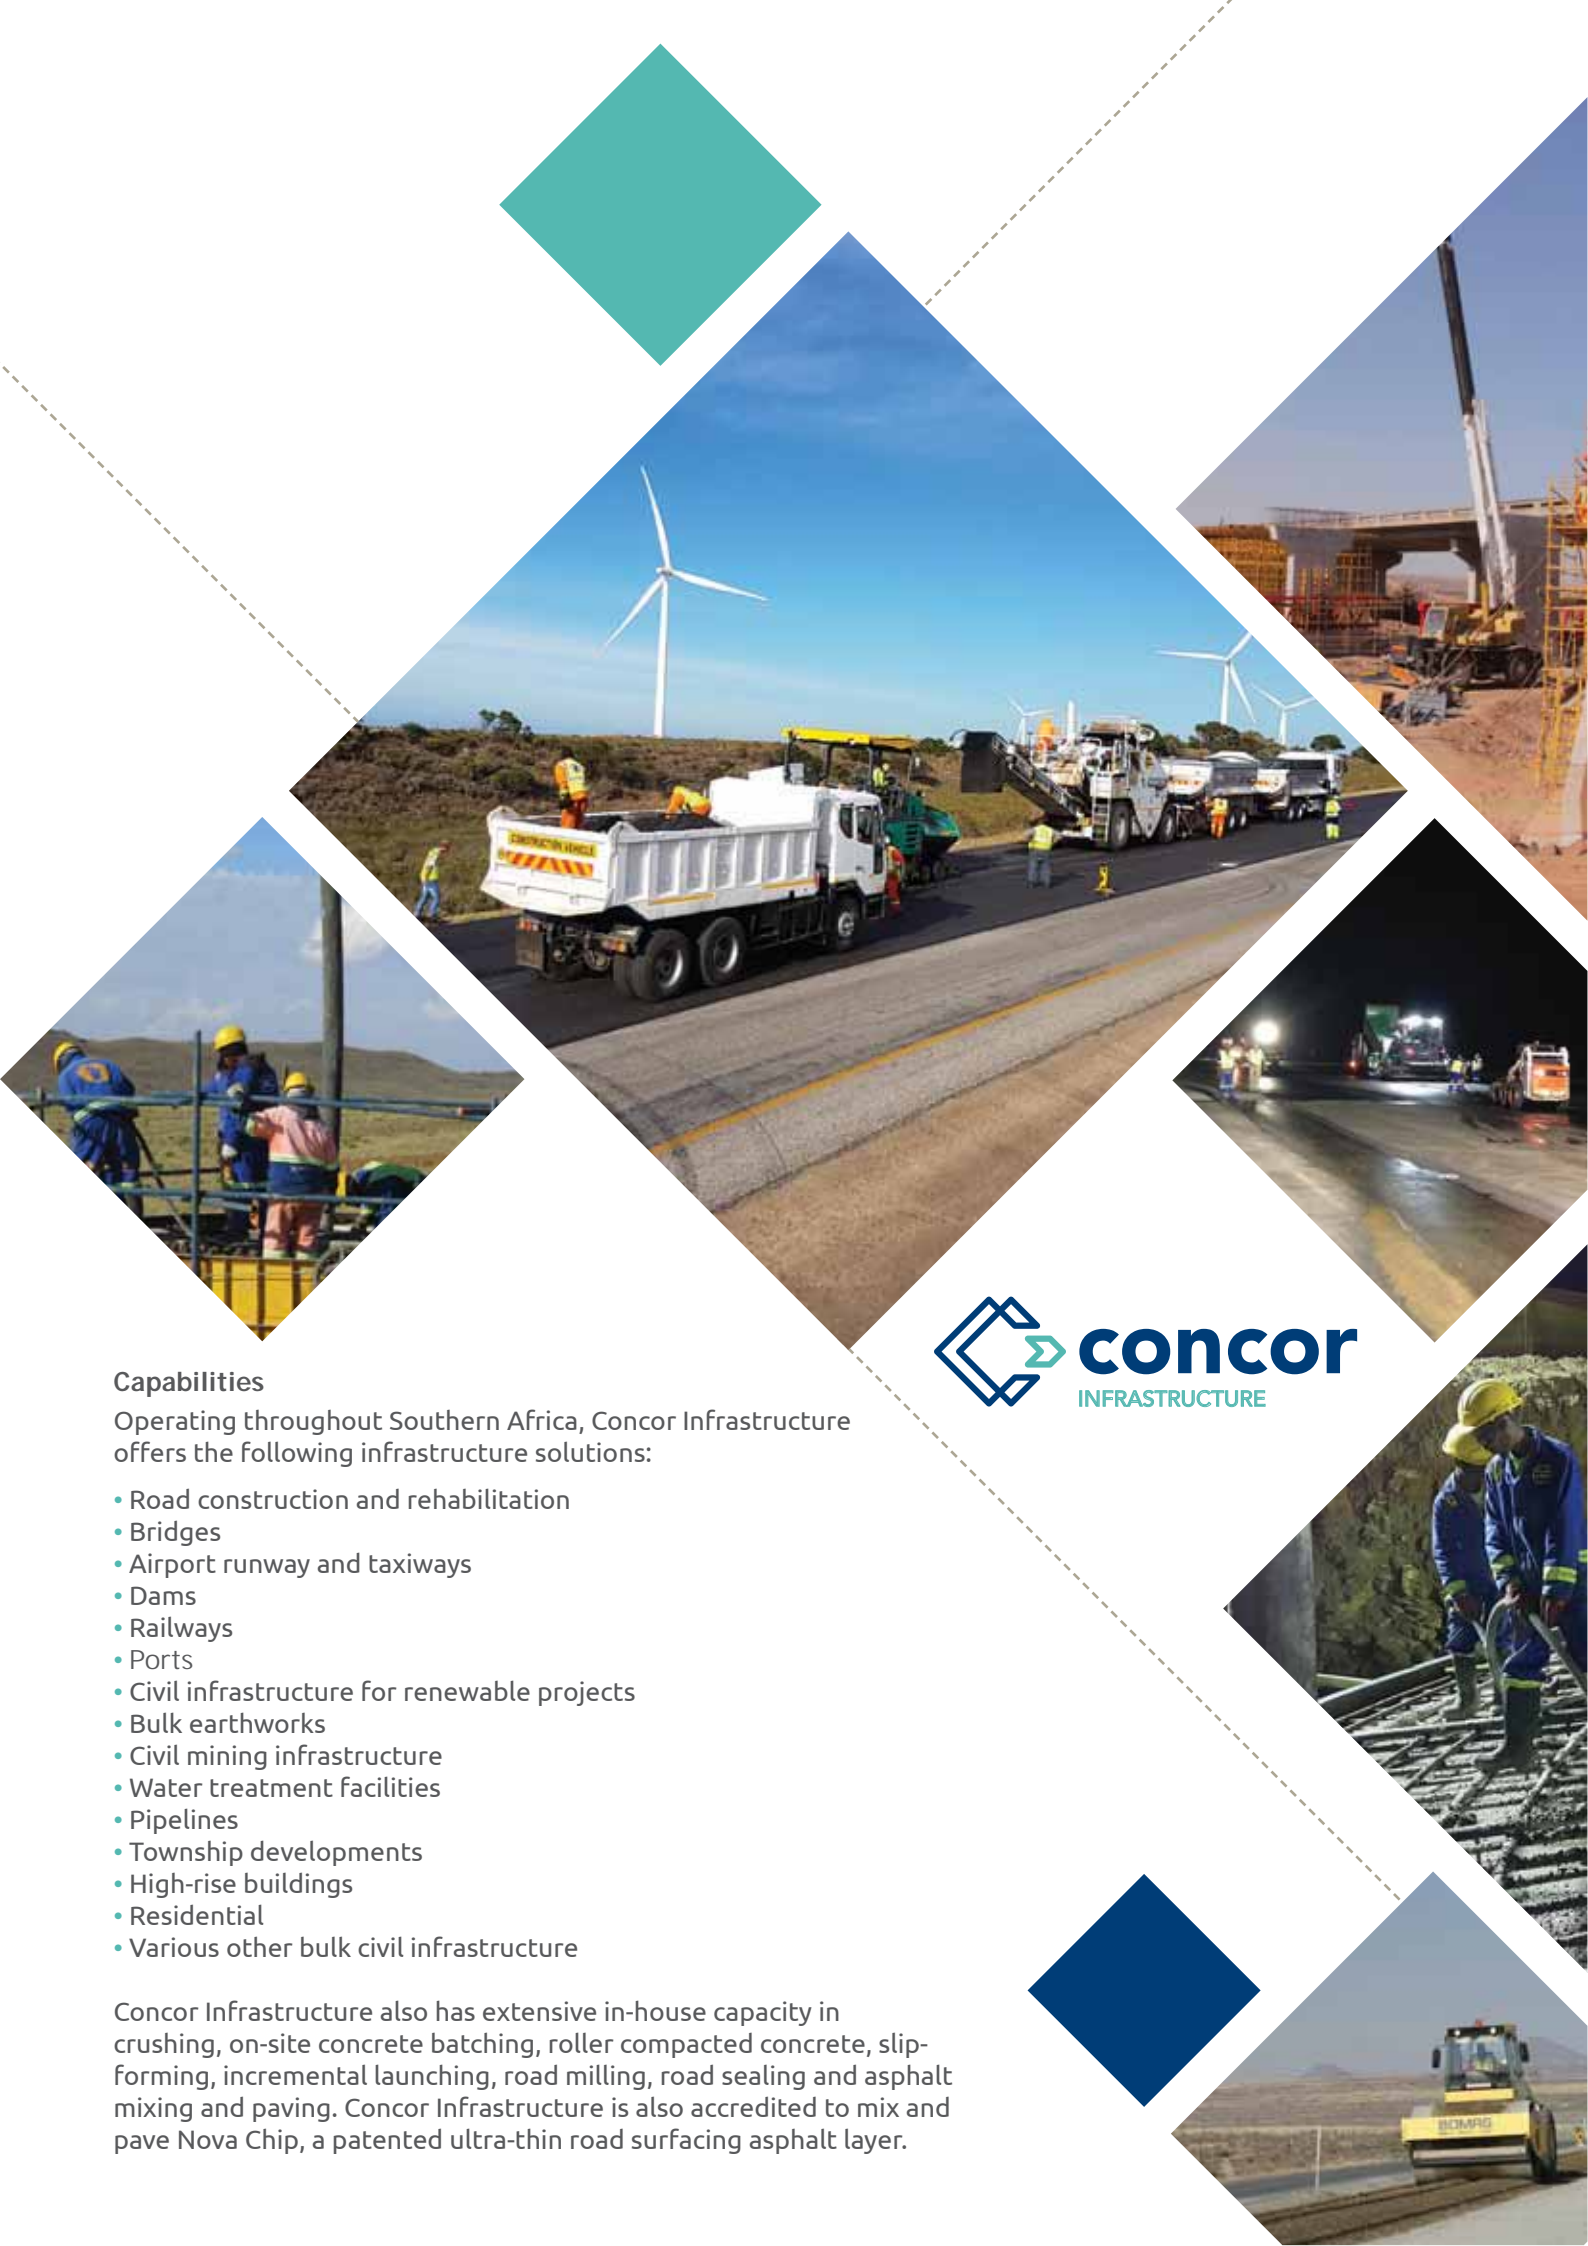

Concor Infrastructure is driven by a committed leadership team that consistently strives to meet and exceed our clients' objectives.

Our mission is to be the leading contractor of choice, offering world class infrastructure solutions for the benefit of all its stakeholders.

Concor Infrastructure has an excellent track record and is committed to providing a healthy and safe operating environment that is underpinned by Concor's Stop.Think. Act! philosophy. Concor Infrastructure is ISO 9001, ISO 14001 and OHSAS 18001 accredited.

The business is headquartered in Johannesburg, with multiple project sites located across South and Southern Africa.

Capabilities

Operating throughout Southern Africa, Concor Infrastructure offers the following infrastructure solutions:

- Road construction and rehabilitation
- Bridges
- Airport runway and taxiways
- Dams
- Railways
- Ports
- Civil infrastructure for renewable projects
- Bulk earthworks
- Civil mining infrastructure
- Water treatment facilities
- Pipelines
- Township developments
- High-rise buildings
- Residential
- Various other bulk civil infrastructure

Concor Infrastructure also has extensive in-house capacity in crushing, on-site concrete batching, roller compacted concrete, slip-forming, incremental launching, road milling, road sealing and asphalt mixing and paving. Concor Infrastructure is also accredited to mix and pave Nova Chip, a patented ultra-thin road surfacing asphalt layer.

A leading black-owned infrastructure and buildings business, operating in South Africa and selected African countries, and a proudly Level 1 B-BBEE accredited business.
