Karenpark, Pretoria, Gauteng, South Africa

PROJECT TYPE: Expansion of Regional shopping centre

CLIENT:
Emira Property Fund

VALUE:
R 540 Million

PROJECT DURATION:
14 Months

DATE OF PROJECT:
2014

PROJECT DESCRIPTION:
Increase the current center's size by more than 30%. As part of this phase, Massmart's Game branded store was enlarged, as was Edgars. A DisChem store was also opened.

The overall extension increased the center's size to the 90,000m² mark. The mall was about 63,000m² when the upgrade began. This expansion and substantial redevelopment would transform the centre from a regional shopping centre to a "super-regional" centre in Pretoria
